Education

2010 - 2014

Bachelor of Science in Psychology, Ergonomics & Human Factors Concentration

CSU Eastbay

Expertise

UX/UI Design

Wireframing, Prototyping, Journey Mapping, Information Architecture, Accessibility (WCAG), Storyboarding, Personas

Research & Strategy

Usability Testing, Heuristic Evaluation, Quantitative & Qualitative Analysis, Data Analytics, Competitive Analysis

Design Systems

Style Guides, Component Libraries, Responsive Design

Design Software

Figma, Sketch, Adobe XD, InVision, Protopie, Adobe Illustrator, Adobe Photoshop (Creative Suite)

Development Knowledge

Basic HTML, CSS, JavaScript Tools

Collaboration & Workflow

Abstract, Agile, Scrum Master, Lean UX, Contentful

Design Leadership

2020 - Present

HPN4Tigray | Portland, OR

Communications Team Lead

Directed communication strategy that increased donor contributions by 25% and expanded reach by 44%.

Built reusable design templates and digital media assets that accelerated campaign launches by 37%.

Huruy Kidanemariam

UX Designer

UX specialist with 8+ years of experience crafting accessible, data-informed product narratives for enterprise, SaaS, and immersive tech. Leveraging a background in Psychology and Human Factors, I simplify complex compliance and technical workflows into coherent, human-centered interface copy. Experienced in partnering with product, engineering, and legal teams to drive growth through clear messaging, chatbot conversational design, and scalable design systems.

Experience

April 2023 - Present

Asure Software | Austin, TX

UX Designer

- Focus: Simplifying complexity, chatbot writing, and cross-functional collaboration.
- Refined Interface Copy & Error Mapping: Led content strategy for enterprise HR and compliance workflows across web and mobile. Mapped out edge cases and rewrote error messaging to reduce friction, improving task completion rates.
- Conversational Design (AI): Designed the persona and conversational scripts for "Luna," an AI chatbot. Partnered with PMs and QA to refine prompt engineering and AI-driven insights, ensuring a consistent voice that increased release velocity.
- Design System Documentation: Authored usage guidelines and accessibility standards (WCAG) for a new design system, ensuring consistent terminology and responsive layouts across 3 product lines.
- Collaboration: Facilitated workshops with stakeholders to align on product naming and messaging strategies, advocating for inclusive language and clear functional specs

Jan 2020 - Feb 2023

IMMERSE | Los Angeles, CA

UX Designer

- Onboarding & Feature Education: Wrote and designed end-to-end onboarding narratives for VR learning experiences, transforming complex 3D interactions into intuitive, bite-sized instructional text.
- Content Frameworks: Developed Immerse's first content and design framework, establishing guidelines for tone, voice, and accessible instruction that were adopted company-wide.
- User Journey Optimization: Conducted usability testing to identify linguistic friction points. Rewrote prompt copy to reduce cognitive load, significantly improving learner retention and reducing motion discomfort.
- Cross-Functional Alignment: Partnered with instructional designers and engineers to ensure UI copy aligned with pedagogical goals and technical constraints.

Jan 2016 - Jan 2020

Datable | Oakland, CA

Product Designer

- Multi-Brand Content Strategy: Managed UX writing and design for multiple concurrent client projects across SaaS and fintech, adapting voice and tone to match distinct brand identities.
- Scalable Messaging Standards: Established a modular design system in Figma that included standardized copy patterns for empty states and notifications, reducing design-to-dev turnaround by 30%.
- Data-Driven Iteration: Collaborated with stakeholders to refine call-to-action (CTA) copy based on business KPIs and conversion data, resulting in measurable engagement improvements.
