Figma · Prototyping · Wireframing · Visual Design · Design Systems · Information Architecture · Journey Mapping

RESEARCH

Usability Testing · Heuristic Evaluation · Competitive Analysis · User Interviews

DEVELOPMENT

React · HTML/CSS · JavaScript

COLLABORATION

Agile · Scrum · Cross-functional Teams · Lean UX

AI

Prompt Engineering · AI Prototyping · LLM Integration · Human-in-the-Loop Design

SIDE PROJECTS

EBT Finder

Designed, built, and shipped a review-first SNAP/EBT store locator to the App Store. UX research, Figma, React, Supabase.

Beles

Designed a culturally authentic dating app for the Tigrayan diaspora community

SUMMARY

Senior UX Designer with 8+ years in UX, interaction, and product design, including enterprise conversational AI, payroll, and benefits. Hands-on with generative AI patterns, prompt engineering, and LLM response guardrails in production applications. Currently a Senior UX Designer at Capital Group.

EXPERIENCE

Senior UX Designer — Mar 2026 – Present
Capital Group (via Luxoft) · Los Angeles, CA

- Design internal enterprise products in a regulated industry, partnering with product, engineering, and compliance stakeholders
- Contribute to shared design systems and interaction patterns used across product teams

AI Product Designer & Builder — 2024 – Present
Appfinity Labs (Independent) · Los Angeles, CA

- Prototype and ship AI-powered products using LLM integrations, prompt engineering, and conversational UX patterns
- Design guardrails, feedback loops, and human-in-the-loop flows that keep generative AI outputs accurate and on-brand
- Build production React interfaces that connect design decisions directly to working code

UX Designer — Apr 2023 – Mar 2025
Asure Software · Austin, TX

- Led end-to-end UX for a compliance engine covering 9,000+ tax agencies, designing explicit configuration, review and release workflows
- Designed persona and conversational scripts for 'Luna,' an enterprise AI chatbot integrated across HR, payroll, and benefits
- Built and authored WCAG-compliant design system guidelines, establishing accessibility standards across web and mobile products
- Facilitated cross-functional workshops with product, engineering, and SME stakeholders to align on content strategy and information architecture

UX Designer — Jan 2020 – Feb 2023
IMMERSE · Los Angeles, CA

- Designed onboarding flows for VR-based English language learning experiences, improving learner retention
- Developed Immerse's first content and design framework, establishing reusable guidelines for instructional designers
- Conducted usability testing to identify linguistic friction points. Rewrote prompt sequences reducing user errors
- Partnered with instructional designers and engineers to ensure UI copy aligned with pedagogical best practices

Product Designer — Jan 2016 – Jan 2020
Datable · Oakland, CA

- Managed UX writing and design for multiple concurrent SaaS client projects across diverse industries
- Established a modular design system in Figma with standardized copy patterns for error states, empty states, and CTAs
- Collaborated with stakeholders to refine CTA copy based on business KPIs and conversion data

DESIGN LEADERSHIP

Communications Team Lead — 2020 – Present
HPN4Tigray · Portland, OR

Lead storytelling and advocacy campaigns for a diaspora humanitarian network, and built the reusable design templates the team uses to launch campaigns.
